

Peijin Wang

2424 Erwin Road, Room 11036, Durham, NC 27705

☎ (+1) 206-661-4032 | ✉ peijin.wang@duke.edu | 🏠 peijin-wang.github.io/ | 📷 Peijin-Wang

Research Interests

Bayesian methods for clinical trials; causal inference; external controls and dynamic information borrowing; adaptive clinical trial design; real-world data and real-world evidence

Education

Duke University

PHD IN BIOSTATISTICS

Durham, NC

Expected May 2027

- Thesis: Innovative Bayesian Statistical Approaches in Clinical Trials Leveraging External Controls
- Advisor: Hwanhee Hong, PhD
- Committee: Laine E. Thomas, PhD; Sean M. O'Brien, PhD; Samuel I. Berchuck, PhD; Scott M. Palmer, MD

Duke University

MASTER OF BIOSTATISTICS

Durham, NC

May 2022

- Thesis: The Impact of Block Size on Treatment Imbalance and Blinding Integrity in Randomized Clinical Trials
- Advisor: Shein-Chung Chow, PhD

Central South University

BS IN STATISTICS

Changsha, China

June 2020

- Thesis: Connectedness and Hedging between Hedging Assets and Stock Markets
- Advisor: Hongwei Zhang, PhD

Professional Experience

Research Assistant, Duke University

Aug. 2024 - Present

PI: Hwanhee Hong, PhD

Durham, NC

- Collaborate with clinicians on statistical analyses addressing clinical questions in atrial fibrillation using the COMBINE AF database.
- Develop and evaluate methods for leveraging external control data from chronic lung allograft dysfunction (CLAD) cohorts to inform future hybrid controlled trial designs.

Statistical Scientist Intern, Berry Consultants

May 2025 - Aug. 2025

Main Project: Leveraging External Controls in Amyotrophic Lateral Sclerosis Single-Arm Trials

Remote

- Lead simulation studies evaluating causal inference methods for leveraging external controls in small single-arm amyotrophic lateral sclerosis (ALS) trials.
- Contribute to Bayesian clinical trial design and simulation involving external data borrowing.

Research Assistant, Duke University

Sep. 2021 - May 2022

PI: Shein-Chung Chow, PhD

Durham, NC

- Collaborate with clinical investigators on statistical analyses for an observational study of rehabilitation in lung transplantation.
- Support the design and analysis of a randomized palliative care trial.

Honors & Awards

TRAVEL AND COMPETITION AWARDS

- 2026 **ASA BIOP Scholarship Award**, American Statistical Association Biopharmaceutical Section
- 2025 **Student Travel Award**, American Statistical Association Biopharmaceutical Section Regulatory-Industry Statistics Workshop (RISW)
- 2025 **Best Poster Award**, Duke Industry Statistical Symposium (DISS)
- 2025 **Student Travel Award**, North Carolina Chapter of the American Statistical Association
- 2025 **Student Paper Travel Award**, International Conference on Health Policy Statistics (ICHPS)
- 2019 **First Prize**, China University Student Statistical Modeling Competition
- 2018 **Honorable Mention Award**, Mathematical Contest in Modeling/Interdisciplinary Contest in Modeling Contest

DUKE UNIVERSITY

- 2023 International Chancellor's Scholarship
- 2022 Overall Academic Achievement of Duke Master of Biostatistics Program
- 2022 Student Leadership Awards Duke Master of Biostatistics Program
- 2022 Honorable Mentions for the Masters Project

CENTRAL SOUTH UNIVERSITY

2017-19 3rd Scholarship, Academic Excellence Award

Presentations

ORAL PRESENTATIONS

- 2026 A Bayesian Adaptive Design with Sample Size Re-estimation for Hybrid Controlled Trials.
Joint Statistical Meetings (JSM). August, Boston, MA.
- 2026 A Bayesian Adaptive Design with Sample Size Re-estimation for Hybrid Controlled Trials.
Duke Industry Statistical Symposium (DISS). April, Durham, NC.
- 2025 Innovative Bayesian Dynamic Borrowing Methods for Leveraging Multiple External Controls in Randomized Controlled Trials.
New England Statistics Symposium. June, New Haven, CT.
- 2025 Innovative Bayesian Dynamic Borrowing Methods for Leveraging Multiple External Controls in Randomized Controlled Trials.
Eastern North American Regional (ENAR) Meeting of the International Biometric Society. March, New Orleans, LA.
- 2022 Statistical evaluation of absolute change versus responder analysis in clinical trials.
Annual Duke Transplant Center IT Symposium. September, Virtual.

POSTER PRESENTATIONS

- 2025 Innovative Bayesian Dynamic Borrowing Methods for Leveraging Multiple External Controls in Randomized Controlled Trials.
ASA Biopharmaceutical Section Regulatory-Industry Statistics Workshop (RISW). September, Rockville, MD.
- 2025 Innovative Bayesian Dynamic Borrowing Methods for Leveraging Multiple External Controls in Randomized Controlled Trials. (Poster Lightning Talk)
Duke Industry Statistical Symposium (DISS). April, Durham, NC.
- 2025 Integrating Randomized Controlled Trial and External Control Data Using Balancing Weights: A Comparison of Estimands and Estimators.
International Conference on Health Policy Statistics (ICHPS). January, San Diego, CA.
- 2024 The Use of Real-World Data for Clinical Investigation of Effectiveness in Drug Development.
Eastern North American Regional (ENAR) Meeting of the International Biometric Society. March, Baltimore, MD.

Teaching

- 2022-23 Generalized Linear Models (BIOS 719), Department of Biostatistics and Bioinformatics, Duke University.
Instructors: Hwanhee Hong, PhD.
Responsibilities: grading and holding office hours.
- 2023-24 Clinical Trial Design and Analysis (BIOS 718), Department of Biostatistics and Bioinformatics, Duke University.
Instructors: Xiaofei Wang, PhD.
Responsibilities: writing homework solutions, grading, and holding office hours.

Professional Activities

SESSION CHAIR

- 2026 Joint Statistical Meetings. *August, Boston, MA.*

VOLUNTEER

- 2025-26 Student Council Member. *Duke Biostatistics Student Council.*

- 2025 Student Coordinator. *Duke University BIOS 900, a seminar course for more than 30 Biostatistics PhD students.*
- 2025 Student Volunteer. *Duke Industry Statistics Symposium. April, Durham, NC.*
- 2024 Student Volunteer Lead. *Duke Industry Statistics Symposium. April, Durham, NC.*

SOCIETY MEMBER

- 2022- American Statistical Association (ASA)
- 2022- Eastern North American Region International Biometric Society (ENAR)
- 2022- International Biometric Society (IBS)
